ROI ON COST

The opportunity in one page

01 The asset

Six-bedroom B Type, 14,918 sq ft BUA on a 14,719 sq ft plot. Corner unit, single row, backing onto parkland — the rarest configuration in The Residences. Plans and permissions are already approved.

02 The entry

AED 38m purchase — below the last two B Type sales in The Residences at AED 41.5m and AED 42.5m, both in standard unrenovated condition. All-in to completion is AED 52.318m.

03 The evidence

Eight recent Al Barari sales, from AED 69m to AED 121.2m. The four Residences comparables sit between AED 69m and AED 80m.

04 The return

At the AED 85m target the project returns AED 30.982m net of sales fees — an ROI of 59.22% on cost. A sale at AED 78m still returns 46.11%.

Break-even for a 20% ROI is a gross sale at AED 64.1m — beneath every comparable in the evidence set, including the weakest.

Returns are net of 2% sales fees. Holding costs, service charge and any finance sit outside the 52.318m and should be layered on before a final underwrite.

THE ASSET

Six bedrooms, stripped to shell, ready to build

Built-up area	14,918 sq ft
Plot area	14,719 sq ft
Accommodation	6 bedrooms + study
Ancillary	Maid's and driver's rooms
Position	Corner unit, single row
Aspect	Backing onto parkland
Condition	Stripped back to shell
Extension	Scope to add built area

Corner approach · double-height hall · pool and rear terrace · kitchen, stripped

Why this unit, and not the next one

Parkland outlook from the roof terrace • pool to park • upper terrace

Rare to market

Park-backing B Types come up infrequently. Corner units among them are rarer still.

Single row

Nothing behind the villa. The green outlook is protected by the masterplan, not by a neighbour's goodwill.

Plot beats product

The plot carries the value. The house can be rebuilt to any standard; the position cannot be bought later.

End-user buyers

Six bedrooms, study and staff rooms target resident families — a deeper, less price-elastic pool.

MARKET EVIDENCE

Eight recent Al Barari sales

Sub-community	Beds	BUA (sq ft)	Sale price (AED)	AED / sq ft
The Reserve	6	16,458	121,200,000	7,364
The Collection	5	16,939	107,000,000	6,317
The Residences	6	16,458	80,000,000	4,861
The Collection	5	10,633	75,500,000	7,101
The Collection	5	8,407	75,000,000	8,921
The Residences	6	12,680	73,000,000	5,757
The Residences	6	14,919	72,000,000	4,826
The Residences	6	16,458	69,000,000	4,192

Blended average — total value ÷ total BUA AED 5,956 / sq ft

ENTRY BASIS

Last two B Type sales here, both standard unrenovated condition

AED 41.5m

AED 42.5m

WE BUY AT

AED 38m

Below both — a motivated seller.

Read carefully

Tinted rows are The Residences — our sub-community. They blend to AED 4,858 / sq ft. The Collection and The Reserve trade higher and pull the 5,956 headline up.

From standard stock to reference sale

01 Full refurbishment

New kitchen and utility, all bathrooms, joinery, flooring, doors, MEP upgrade, smart home, lighting design and redecoration to a single coherent scheme. Strip-out is already complete.

02 Extend under existing approvals

The current owner already holds approved plans and permissions, so the extension can proceed without a fresh approval cycle. Works price at AED 1,700 per sq ft against comparable values well above that — the spread is the cheapest value in the project.

03 Landscape and external

Re-landscape to exploit the park backdrop — pool re-lining, terracing, outdoor kitchen, mature planting, external lighting. This is where the corner plot earns its premium.

04 Presentation and exit

Furnishing or professional staging, architectural photography and film, and a controlled off-market launch to end-user buyers before open listing.

Design intent: one designer, one scheme, executed to Collection standard. Piecemeal specification is what caps a B Type at the bottom of the comparable range.

THE NUMBERS

Cost stack and target exit

Purchase price	AED 38,000,000	59.22% ROI on cost
DLD 4% / stamp duty	AED 1,520,000	
Agents commission on purchase	AED 798,000	
Purchase + fees	AED 40,318,000	36.4% Profit on gross sale
Builder contract — turnkey, internal and external	AED 12,000,000	
Total cost to completion	AED 52,318,000	5,659 AED / sq ft of plot, net
Target exit — gross sale	AED 85,000,000	
Less sales fees @ 2%	AED 1,700,000	AED 64.1m Break-even for a 20% ROI
Resale net after sales fees	AED 83,300,000	
Profit	AED 30,982,000	

The AED 38m purchase sits below the last two B Type sales in The Residences — AED 41.5m and AED 42.5m, both unrenovated. Extension works are priced separately at AED 1,700 per sq ft. Holding costs, service charge and finance are not in the stack above.

PROFITS AND RETURNS ON INVESTMENT

Net of 2% sales fees

Gross sale	Resale net after fees	Profit	ROI %	AED / sq ft of plot
AED 78M	76,440,000	24,122,000	46.11%	5,193.29
AED 80M	78,400,000	26,082,000	49.85%	5,326.45
AED 83M	81,340,000	29,022,000	55.47%	5,526.19
AED 85M	83,300,000	30,982,000	59.22%	TARGET 5,659.35
AED 87M	85,260,000	32,942,000	62.96%	5,792.51

Plot 14,719 sq ft · BUA 14,918 sq ft · Total cost to completion AED 52,318,000

The whole band sits inside the comparable evidence — the weakest Residences sale was AED 69m and the strongest AED 80m, with wider-community sales to AED 121.2m. Returns are before holding costs, service charge and finance.

Eighteen months, and what could move it

3

MONTHS 5-14

Construction

4

MONTHS 14-16

Snag & present

5

MONTHS 16-18

Exit

Build cost overrun

The AED 12m builder contract is the single line most at risk. Fix it as a lump sum on a full scope before starting on site.

Redesign resets the approvals

Permissions are already granted, so the scheme can start quickly. If a new owner commissions their own design instead, the approval cycle restarts — the programme retains months 2 to 5 for exactly that.

Exit below the target

A sale at AED 78m still returns 46.11% net of fees. Specify to Collection standard so the villa is compared upward, not down.

Programme slippage

Every extra month adds holding cost and market risk. Front-load approvals and appoint the contractor on early works.

FULL PROJECT BRIEFING

Contact me for more information

A full project briefing is available on request, covering the complete cost breakdown, the construction scope, the comparable evidence in detail and the proposed programme to exit.

Plans and permissions already in place

The current owner holds approved plans and permissions for the villa, which means the scheme can be set into action quickly rather than waiting on a fresh design and approval cycle. That documentation can be shared with serious enquiries.
